

**ULD**

**CBRN LIGHTWEIGHT DECONTAMINATION UNIT**

**MAIN CHARACTERISTICS**

- **Rapidly set up** (less than 5 min) by only 2 persons\*
- **Small footprint** (20" standard ISO)
- **Easy to transport** by truck with ALW < 7.5T
- **Quick repacking**
- Mass : maxi 3 tons (depending on options)

**EFFICIENT**

- **Effective on any type of CBRN contamination**
- **Easy to use**
- **Fix or Mobile configuration**
- Further possible uses (mass immunization, medical consultations, etc.)
- Suitable for **able bodied** and **disabled persons**

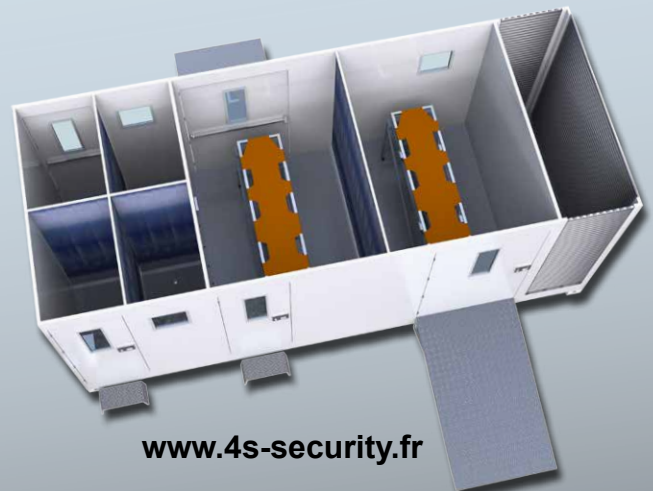

**SECURITY**

- **Walk through principle**
- **Separate cabins** with removable components \*
- **Air flows management**
- **No cross contamination**
- **Smooth surfaces** with rounded corners
- **Watertight and airtight doors** with an oculus
- **Integrated system** for biologically or chemically contaminated water treatment before evacuation

**COST EFFECTIVE**

- Long **service life**
- **Cost effective** maintenance

(\*) Depending on version

## FIX CONFIGURATION

- Connection to warm water network or electric water heater
- Proportional dosage of decontamination solution
- Storage tank for the decontaminant
- Storage tank for the effluents
- Integrated draining pump
- Ventilation air flux heating
- Sealing lighting

## MOBILE CONFIGURATION

- Water and air heater
- Power generator
- Proportional dosage of decontamination solution
- Storage tank for the decontaminant
- Storage tank for the effluents
- Integrated draining pump
- Sealing lighting

## REMOVABLE CONFIGURATION

- Proportional dosage of decontamination solution
- Storage tank for the decontaminant
- Storage tank for the effluents
- Integrated draining pump
- Water and air heater
- Power generator
- Loader arm
- Sealing lighting

## OPTIONS

- Customized design
- Automatic leveling system with 2 or 4 engines
- Trailer and electric jacks system (ALW > 7,5)
- Specific external painting, marking or specific signs
- Other equipment: contact us
